

Dear FCC,

As a paying customer of XM Satellite radio I am writing in objection to NAB's petition 04-160.

With Xm radio I have enjoyed a wide variety of quality audio programs. As I travel accross

Illinois many times I cannot receive Am or FM broadcasts in rural areas. That is not the case with XM radio. Please no not limit Xm radio's ability to broadcast news and weather information.

Thank you,
Jason Warner
Peoria, IL
